# THE PANCREATIC CANCER STORY

relative 5-year survival rate

3RD lead can

leading cause of cancer-related death in the U.S.

# **OUR GOAL IS TO ACCELERATE PROGRESS FOR PATIENTS**

#### **WE'LL GETTHERE BY ADDRESSING 6 KEY NEEDS**

More researchers and resource

Discover ways to detect disease earlier

Increase clinical trial enrollment

Bring new treatment options to patients faster

Increase knowledge of the disease and how best to treat it

More public awareness and visibility

# OUR PROVEN APPROACH TO MAKE IT HAPPEN

#### SCIENTIFIC RESEARCH

We fund the most promising research and cutting-edge initiatives, including Precision Promise<sup>SM</sup> and Know Your Tumor<sup>®</sup>.

Since 2003, we have awarded 199 grants to 187 scientists at 71 institutions, and our total projected research investment to date is approximately \$126 million, including our competitive Research Grants Program and leading-edge scientific and clinical initiatives.

#### **PATIENT SERVICES**

We provide information about the disease, treatment options, clinical trial searches and more to patients and families

We share resources and speak with more pancreatic cancer patients than any other organization in the world.

#### **GOVERNMENT ADVOCACY**

We drive legislative support for increased federal research funding.

We've helped increase National Cancer Institute pancreatic cancer research funding from \$17 million in 1999, the year of our founding, to over \$177 million in 2017.

#### **COMMUNITY ENGAGEMENT**

We mobilize a national network of volunteers who raise awareness and funds through large-scale community events like PurpleStride®, the walk to end pancreatic cancer, and individual DIY fundraising.

We've inspired more than one million people to take action since our founding.

### **PROGRESS IS DRIVEN BY OUR DEDICATED SUPPORTERS**
